Integrated Flange, Maintenance-Free Bearing For Independent Discs

IL50S-98/3T-2xM16

Integrated Flange, Maintenance-Free Bearing For Independent Discs Cultivator

FKLO

Technical Specification

F kg	Length of threaded part	23 mm 3.4 kg
L1	Total flange length	59.8 mm
G	Internal Thread Total length	2xM16 mm 130 mm
H/T	Hole/Thread	M12 mm
D1	Outside diameter	56 mm
J D	Pitch circle diameter Outside diameter	98 mm 117 mm

Sealing

SHEET METAL SHIELD+RS SEAL / DIRTBLOCK SEAL+FORGED COVER PLATE

Sheet metal shield and RS seal on the base side and Dirtblock seal and Forged cover plate on the front side which is exposed to contaminants.

Sheet metal shield and RS seal together with attached disc eliminates the possibility of contamination from the base side. Dirtblock seal is designed for hard working condition at unfriendly environment. Half metal – half rubber outside diameter provides reliable seal retention in the bore and improves sealing performance. Inside diameter is covered by rubber and improves sealing performance and easy installation. Forged cover plate is additional, strong protection of the Dirtblock seal against mechanical damage.

This sealing provides maximum protection against liquid or solid contaminants, which significantly extends bearing service life.
